

QUALITY POLICY STATEMENT

Gridworx is committed to creating an environment where we deliver a quality service to meet our client's requirements and maintain excellent client relations. This ethos extends throughout our business activities and will be defined by the level of service offered in terms of quality, commercial, occupational safety & health and environmental concerns.

The pursuit of the required quality of service to our clients is essential to the long-term growth and survival of the business. In delivering this policy, Gridworx believes in the concept of the client, company and supply chain working together and using the knowledge gained for continual improvements in quality and efficiency.

Documented objectives are set and reviewed by Gridworx during management system review meetings and monitored during internal audits and operational review meetings.

In order to ensure that our services are of the highest quality, Gridworx involves all its employees in the implementation of its quality systems through training and communication. Practical assistance is provided, where necessary, to ensure that best practice is shared to enable the successful delivery of this policy.

Gridworx will implement and maintain its quality procedures, which are compliant with the requirements of the recognised international standard ISO 9001:2008.

To ensure a high quality of service from our supply chain partners, it is a requirement that they operate a robust quality management system that is compliant with the requirements of ISO 9001:2008.
